

THANK YOU FOR KEEPING THE COAST AND HARBOUR CLEAN AND SAFE!

Environmental Policy:

Shellharbour Marina is committed to conducting its business in an environmentally sound manner and believes that the environmental goals can, and should, be consistent with the business development.

FISH WASTE

Potential environment impacts occur through the mismanagement of fish carcasses. To assist Shellharbour Marina maintain pristine waters within the harbour please observe the following:

- Fish waste in a marina basin can lower oxygen levels in the water.
- As the waste decomposes it leads to foul odour and fish kills.
- Floating fish parts are an unsightly addition to marina waters.

Please do not discard fish scraps within the marina basin.

- Use fish cleaning station located at the boat ramp.
- Bag the scraps and dispose in bin provided or at home.
- Freeze and reuse as berley or bait.
- Save and dispose over deep water.

KEEP IT CLEAN:

- This marina provides food and shelter for young fish.
- Prevent oil spills!
- Keep bilges clean!
- Use oil absorbent pads!
- Help by recycling or properly disposing of used oil, radiator fluids/coolants, solvents, cleaners, plastics, and other wastes.
